

Lynn Harbinson

Advanced Ground Instructor (AGI)

Certified Flight Instructor (CFI)

Certified Flight Instructor Instrument (CFII)

Tailwheel Flight Instructor

Qualified in: C172 Skyhawk C172 (180hp) C182 Skylane BE-S35 Bonanza

Lynn Harbinson earned her Pilot license at Bergstroms in 2011. She went on to earn the Instrument rating and became a Ground School Instructor in 2013. In 2020, Lynn achieved her goal of becoming a Certified Flight Instructor. For her, nothing compares to the view from an airplane and the skill, finesse and safety of a great landing. She cannot wait to share the joy of flight with you and help you meet your aviation goals! Lynn says, "For me, becoming a pilot was a dream that seemed nearly impossible. I cannot wait to help you reach your "impossible" goal."

When Lynn isn't flying or staring at the sky, she enjoys spending time with her family and working as a small animal veterinarian. Lynn has a BS in Veterinary Science. She has practiced small animal medicine in Richland WA for over 25 years.

She is also actively involved in the local 99's chapter, which is the International Organization of Women Pilots.

Like all members of the Bergstrom team, she will do whatever she can to help you reach your aviation goals.
