

Zach Hart

Certified Flight Instructor (CFI)

Qualified in: C172 Skyhawk C172 (180hp) C182 Skylane

Zach Hart, an aviation enthusiast with military roots, discovered his love for flying during his time in the army. He served as a paratrooper with the 173rd Airborne Unit in Vicenza, Italy, where he gained a unique perspective on aircraft – by jumping out of them! His military buddies affectionately nicknamed him "Airforce" because of his fascination with the impressive aircraft providing close support during their missions. Zach's interest in aviation grew as he learned about aircraft weapon systems and their capabilities, sparking a desire to delve deeper into the world of flying.

After leaving the military, Zach's life took a new turn when he met his wife, and together they became parents to two lovely daughters, keeping him quite busy. He kickstarted his flight training at Hillsboro Aero Academy but eventually returned home to complete his certifications with Bergstrom Aircraft. Throughout his journey, Bergstrom Aircraft has been a reliable partner, which is why, when Zach achieved his certified flight instructor status, he knew exactly where he wanted to work.
